

EOL Overview

Subject	RS Wi and associated sensors
EOL Original Issue Date	5 July 2017
Replacement Products	Watchdog Wi, Wireless Temperature Sensor, Wireless Temp/Humidity Sensor, Wireless Range Extender
Planned End of Sale Date	1 September or while supplies last
Part #'s Affected	RS Wi, ENV-TS, ENV-THS-2, ENV-PR, ENV-AS1, ENV-AS2, ENV-AS3, ENV-DIT, Wi-LD

Description

Geist is initiating an End-of-Life for the RS Wi wireless environmental monitor. The RS Wi will be available for final sale until September 2017. The RS Wi and legacy sensors will be replaced with the new Watchdog Wi (WDWI), Wireless Temperature Sensor (WTS), Wireless Temperature/Humidity Sensor (WTHD), and Wireless Range Extender (WRE).

Geist will offer a Wireless Range Extender specifically for the legacy RS Wi gateway to make the new wireless sensors backwards compatible. This will allow existing customers with RS Wi deployments the ability to add additional sensors without having to replace entire systems.

This new, more robust, system of wireless sensors will offer greater sensor capacity, wider range, multiple frequencies, and longer battery life.

Geist will continue to provide existing customers with support and technical assistance on a reasonable commercial basis. Please contact your inside sales representative for pricing and availability on the Watchdog Wi.

Sincerely,
Geist
Product Management Team

Warranty Information

The standard warranty remains in effect for products covered in this notice.
